

# PICTURE COVERS – REAL CAVES

## BELGIUM

---

### Grotte de Han

Han sur Lesse, Namur

**PC-RE-BE1** Belgium ca.Late1970s

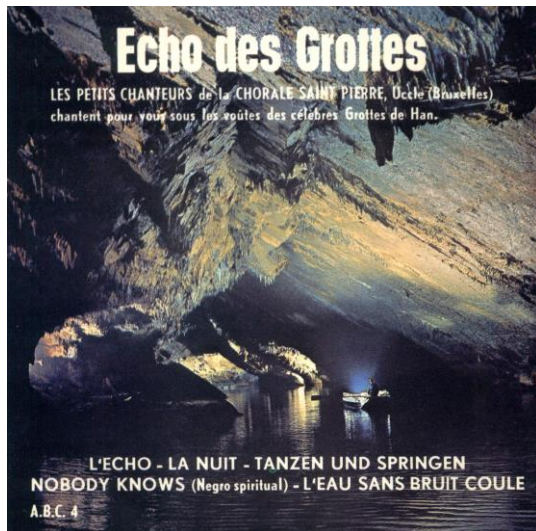

**EP:** ECHO DES GROTTES

**Perf:** Les Petits Chanteurs de la Chorale Saint Pierre,  
Uccle (Bruxelles) (Classical & Popular)

1. Original **EP:** A.B.C. 4
2. Reissue **EP:** A.B.C. 4 (Different Pic Cover)

**Photo:** (Color) (First Edition – Marc Jasinski ?)

**Notes:** The original edition has a nice color photo showing one of the former tourist boats (before mechanization) in the high triangular river passage not far from the entrance where the Lesse resurges. It is a view looking upstream along this passage (which follows the strike of the bedding) with the boat dock in the distance.

However, the second edition had a slightly different cover, a black and white drawing (from photo) tinted orange, showing a closer view looking upstream along this passage. Here the tourist boat with a rower is on the right, the protruding ledge on the left, and the boat dock in the distance. The title and the performing group's name are laid out differently.

**PC-RE-BE2** Belgium ca.1991

**CD:** CAVERNS (WATER AND STONES)

**Perf:** Deep Earth (New Age)

**Label:** PUP 001

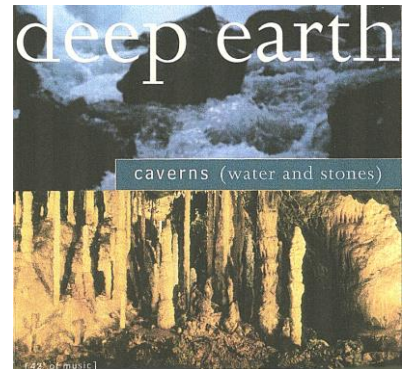

**Photos:** (Color) (?)

**Notes:** Cover shows clusters of stalagmites and columns called "La forêt" (The Forest) located in the New Galleries. Apparently the photo has been printed backwards. The same photo is used on the back cover of this CD.

This is a rare CD, extremely difficult to find and it was only through the kindness of a Dutch caver, Herman de Swart, that a copy was obtained for study.

For more information on this album see under New Age Music – Belgium.
