CAVE

Location: Brazil

DISCOGRAPHY:

CD:

CAVE 231070/ 1

Perf: SILENT

CD Title: The Bright Side

Notes: Silent is a Brazilian hard rock group.

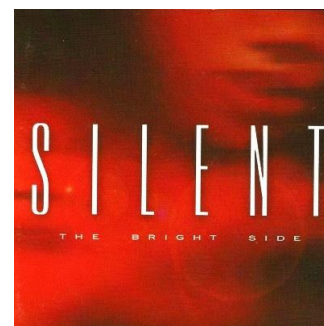

[Discogs](#) put this CD with the Cave UK label, but this doesn't make sense because a hard rock band coming from Brazil just doesn't fit with all those reggae releases on the Cave UK label. Besides the catalog number here does not sequence or match up with any of the Cave UK numbers.

Nothing further could be learned about this label, but it is assumed to be a Brazilian label.

CAVE PRODUCTIONS MS CD 1999 003 (1999)

Perf: AMMOCAVE

CD Title: Across the River / No More Tricks

Notes: The label of the earliest known release the LP, "Cave Cum Annexis," had the word "Cave" in block letters made to resemble cut stone letters. Standing beside the word "Cave" is a caveman in silhouette with a club over his shoulder.

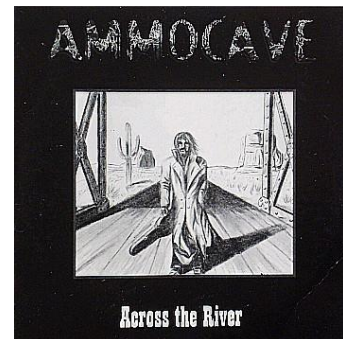

A notice with the 1988 compilation LP reads in bad, unpunctuated English – "Cave productions is a new indipended (sic) label from Buitenpost (Holland) for the bands from Buitenpost c.a. there (sic) are in our local youth centre (Koartling) rehearsal (sic) facilities (the "Cave"). this is the first album from some of our cave bands." (Anon. 1988) The drawing of The Cave (on left) was included with this LP.

Ammocave is a Dutch rock band that started in 1997 in an old munition storage facility (hence the name). They play their own songs, which can be described as heavy rock with a soul touch. See also under the Ammocave label above. The CD single, "Across the River," did not show the label name on the label.
