Fønix Musik FMF CD 1200 (Tk 10)

Notes: A fairly standard New Age offering intended to convey a feeling for the beauty of nature, a feeling of well-being and peace. The sound of fresh winds blowing brings in the buzzing didgeridoo and then relaxed synthesizer chords with various percussions. Drums set down a steady rhythm and the synthesizer continues restating the same theme with didgeridoo backing. Following an interlude on percussion, vocal sounds swell behind while the theme is repeated. For the coda the percussions cease, the didgeridoo carries through, and the wind sounds return until all fades.
